SKYNCARE PROVIDES MORE THAN JUST GREAT TECHNOLOGY

When you choose Skyncare, you choose more than just market-leading technology. You get training from industry experts, on-going technical support, advanced marketing and a company that wants to ensure your business succeeds and stands out from the crowd.

Providing **engaging digital materials** to help you attract new clients and pre-launch your new treatments to ensure you have **clients excited** about booking ASAP.

I got so much interest from my pre-launch posts, I had a wait list for patch tests that made my launch event so successful!

The training I received was exceptional and Skyncare delivered the machine and training to my salon.

Full product training **at your clinic** that leaves you feeling **super confident** using your new device and explaining treatments to your clients.

Post training, we provide **on-going support** for device queries, treatment knowhow and more via our dedicated telephone line, WhatsApp channel and email, so there is always somebody to support you!

The Skyncare team are extremely helpful and knowledgeable. Nothing is too much trouble for them when I need extra help or advice.

I always hated the amount of time I wasted on social media, but since joining the Academy, my followers & engagement have skyrocketed!

Our Skyncare Academy helps expand your social media knowledge and provide all your social media post captions, written for you each month to allow you to stay **5 steps ahead** of your competitors.
